

Threat Research and Incident Prep

Objectives:

- Understand how security professionals keep abreast of the current threat landscape.
- Understand how to use data to prepare for security incidents.

Outline:

- Latest technologies, vulnerabilities, threats, and exploits
- Utilize trend data to determine likelihood and threat attribution
- New Tools/Prevention Techniques
- Data Gathering/Research Tools/Cybersecurity Intelligence
 - Journals
 - Vulnerability Databases
 - Books
 - Blogs
 - Intelligence Feeds
 - Security Advisories
 - Social Network Sites
 - Automated Threat Scoring
- Commonly Targeted Assets
 - Financial Info
 - Account Info
 - IP
 - Trade Secrets
 - PI/PHI
 - National Security Data and Identities
 - Computing Resources
 - Power Resources
