

Threats, Vulnerabilities, Exploits, and Mitigations

Objectives:

At the end of this episode, I will be able to:

1. Describe threats, vulnerabilities, exploits, and mitigations
2. Provide examples of each common security term

Additional resources used during the episode can be obtained using the download link on the overview episode.

Consider making flash cards here if that will help you on these terms and the many others we will be covering:

- Threat
- Vulnerability
- Exploit
- Mitigation

Here is a fun quiz for a challenge:
