

Endpoint Protections for Social Engineering Attacks

Objectives:

At the end of this episode, I will be able to:

1. Describe the overall concept of social engineering attacks
2. Discuss how you can prevent phishing attacks
3. Describe the Cisco approach to endpoint protection against phishing attacks

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the following points:

- Phishing attacks are often one of the first steps in a much larger attack
- Spear phishing is when the attacker knows details about you or your organization to make the attack seem more legitimate

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is a great look at phishing attacks: o
