

Using the PKI

Objectives:

At the end of this episode, I will be able to:

1. Describe the process of certificate requests
2. Understand the common tasks around the PKI

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the following points:

- A certificate can be obtained with a Certificate Request
- There is a CRL to control the retirement of certificates
- The deployment of certificates can be automated

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

OK - want to go REALLY deep into the PKI topic? Check out this amazing post:
