

Configure and Verify the Site-to-Site VPN

Objectives:

At the end of this episode, I will be able to:

1. Understand the concepts of the site to site VPN
2. Understand a configuration approach to a typical site to site VPN configuration

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the main topics of discussion in this episode:

- The DMVPN is just one of the many site to site VPN possibilities with Cisco Systems
- This DMVPN is ideal for hub and spoke deployments
- The DMVPN combines the tech of mGRE, NHRP, and IPsec

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is the configuration guide for the DMVPN:

https://www.cisco.com/c/en/us/td/docs/ios-xml/ios/sec_conn_dmvpn/configuration/xr-16/sec-conn-dmvpn-xr-16-book/sec-conn-dmvpn-dmvpn.html
