

Network Segmentation

Objectives:

At the end of this episode, I will be able to:

1. Describe the "classic" methods of segmentation at Layer 2 and Layer 3
2. Describe new methods for network segmentation

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the classic methods:

- VLANs (Layer 2)
- VRFs (Layer 3)

Remember the new methods we covered:

- Microsegmentation in Cisco ACI with EPGs
- Cisco TrustSec SGTs with Cisco ISE

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is great information for you to read and watch on Cisco TrustSec:
