

Access Control Policies

Objectives:

At the end of this episode, I will be able to:

1. Describe the need for access control policies
2. Understand the common models used today for access control policies

Additional resources used during the episode can be obtained using the download link on the overview episode.

There are many different models to choose from, including:

- Mandatory Access Control (MAC)
- Discretionary Access Control (DAC)
- Role-based Access Control (RBAC)
- Attribute-based Access Control

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is a look at how access control policies are created on the Cisco Firepower devices using the FMC:
