

Compare ESA, CES, WSA

Objectives:

At the end of this episode, I will be able to:

1. Describe the ESA, CES, and WSA
2. Compare and contrast these three security options from Cisco Systems

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the main topics of discussion in this episode:

- The Email Security Appliance acts as a MTA for the on-prem environment
- Cisco Email Security can refer to the protection of your cloud-based email solution - such as GMAIL
- The Web Security Appliance is to provide intense protection of your Web traffic

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is the documentation for the ESA:
