

Describe MDM

Objectives:

At the end of this episode, I will be able to:

1. Describe the purpose of MDM in the modern Enterprise

Additional resources used during the episode can be obtained using the download link on the overview episode.

MDM can help in BYOD and CYOD environments.

MDM can help with:

- App deployment
- Security (DLP)
- Compliance

A nice example of MDM is Microsoft Intune which is now part of the Azure solution.

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

If you should want more information on Microsoft Intune:
