

Explain an Endpoint Patching Strategy

Objectives:

At the end of this episode, I will be able to:

1. Discuss patching software in the cloud
2. Discuss endpoint patch management
3. Discuss Firepower patching

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the main topics of discussion in this episode:

- The level of patching you need to worry about in the cloud varies dramatically based on SaaS, or PaaS, or IaaS
- Patch management solutions - Often the responsibility of MDM; Microsoft SCCM; Microsoft Intune; Cisco ISE
- Firepower patching surrounds these areas - Snort rule updates; vulnerability database updates; geolocation updates; Firepower updates/patches
