

Benefits of Network Telemetry

Objectives:

At the end of this episode, I will be able to:

1. Describe the purpose of network telemetry
2. Provide an example of usage for network telemetry

Additional resources used during the episode can be obtained using the download link on the overview episode.

Model-driven network telemetry is an exciting enhancement made possible by tech like the IOS XE.

Remember, it permits the Cisco device to stream data at a collector. The data and frequency is something you can easily control.

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is one of the many great articles regarding network telemetry:
