

Cisco Firewall and IPS Systems

Objectives:

At the end of this episode, I will be able to:

1. Consider the history of Cisco Systems with firewalls and IPS systems
2. Explain the current Cisco Firepower strategy

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the following points:

- The Cisco PIX was the premier device for a very long time
- The Cisco ASA came next
- Firepower is now the rage! Note that higher end ASAs permit the inclusion of a Firepower module

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is a link to the Cisco Firewalls home page - this is a great way to get a bird's eye view of Firepower:
