

Configure the AWS VPC

Objectives:

At the end of this episode, I will be able to:

1. Discuss the process of preparing AWS for a Firepower deployment

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the general steps here:

- Step 1. Create a VPC
 - Step 2. Add an Internet Gateway
 - Step 3. Add subnets
 - Step 4. Add a route table
 - Step 5. Create a security group
 - Step 6. Create a network interface
 - Step 7. Create an Elastic IP
-

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is the direct link to the online book regarding the FMCv:
