

Initial FMCv Setup

Objectives:

At the end of this episode, I will be able to:

1. Understand the initial configuration steps required by the FMCv following the deployment.

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember:

- There is the initial licensing that must be set up. There is the option for the 90 day eval.
- You must change the initial admin password that you set when you deployed the FMCv.
- To gracefully shutdown the FMCv, you can click the gear icon and go to configuration and then processes.

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is the direct link to the online book regarding the FMCv:
