

NGFW Transparent Mode

Objectives:

At the end of this episode, I will be able to:

1. Describe transparent mode on the NGFW
2. Describe the process used to switch modes after deployment

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember:

- With the transparent mode device, the interfaces are in the same subnet
- To switch modes after deployment:
 - De-register with FMC
 - Use the command line on the FTD to switch the modes (all config erased)
 - Re-register with the FMC

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:
