

QoS

Objectives:

At the end of this episode, I will be able to:

1. Describe the QoS support found on the FTD
2. Explain the configuration process for QoS on the FTD

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the following points:

- No fastpath QoS (duh!)
- Routed interfaces only
- No logging
- 32 rules
- Order matters
- Upload/download

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:
