

VPN

Objectives:

At the end of this episode, I will be able to:

1. Describe the two major types of VPNs
2. Describe the VPN types supported on the Firepower system

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the following points:

- The Firepower supports the two major types of VPNs in use today - both Remote Access as well as Site-to-Site
- The Firepower supports SSL and IPsec IKEv2 VPNs for remote access
- The Firepower supports site-to-site VPN configurations as well - providing full mesh or partial mesh designs

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:
