

Object Management

Objectives:

At the end of this episode, I will be able to:

1. Describe the power of objects in Firepower
2. Understand several common objects and their configuration process

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember:

- Objects allow quick and easy configurations of more complex objects like policies
- Object overrides permit you to configure exceptions for certain devices; for example, you might use a different range of IP addresses for a different FTD system

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:
