

Intrusion Rules

Objectives:

At the end of this episode, I will be able to:

1. Describe intrusion rules and their purpose
2. Configure intrusion rules on the Firepower

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember:

- Intrusion rules allow you to examine and even create your own IPS rules
- You can create "overrides" for certain traffic flows using the PASS action; this is often much better than disabling the rule

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:

Here is a link to the full documentation on this topic:
