

Packet Capture

Objectives:

At the end of this episode, I will be able to:

1. Explain why you might want to take a packet capture using the FTD
2. Explain the steps in taking a packet capture using the FTD

Additional resources used during the episode can be obtained using the download link on the overview episode.

Remember the following points:

- We perform the packet capture using the CLI on the Firepower
- The older command was - system support capture-traffic
- The new command is capture-traffic
- This feature calls upon the tcpdump tool
- We can also perform traffic captures in the Firepower GUI as demonstrated in the episode

External Resources:

During this episode, you can reference the following external resources for supplementary tools and information:
