Domain: Efficiency and Process Improvement in Security Operations

Episode: Streamlining Operations

=====

Streamlining Operations

Objectives

- Automation and orchestration
 - Security orchestration, automation, and response (SOAR)
- Orchestrating threat intelligence data
 - Data enrichment
 - Improves SIEM capabilities by integrating contextual information
 - Group Membership, Geolocation, Social Media, Treat Intel, etc
 - Better detections through Threat Intelligence
 - Better asset risk categorization
 - Better prioritization of alerts
 - Threat feed combination
- Minimize human engagement
 - Allows humans to...
 - Focus more on more difficult tasks
 - Reduces human-error
 - Increases efficiency
