

Communicate Incident Response Reports

At the end of this episode, I will be able to:

1. Communicate the importance of incident response finding to appropriate stakeholders.

Learner Objective: *Communicate the importance of incident response finding to appropriate stakeholders.*

Description: In this episode, the learner will identify common stakeholder in incident response reporting, including the components of the incident response report.

- Communications (1)
 - o Stakeholders
 - ♣ IT security team - technical aspects of the incident
 - ♣ Incident declaration - who is authoritative?
 - ♣ Communicate the process
 - ♣ Name(s)
 - ♣ Position(s)
 - ♣ Who handles the response?
 - ♣ Names
 - ♣ Positions
 - ♣ Contact information
 - ♣ Incident escalation?
 - ♣ Communicate the process
 - ♣ Name(s)
 - ♣ Position(s)
 - ♣ Executives - make key decisions (CTO, CISO)
 - ♣ Higher level view of the incident
 - ♣ Do not care about the minutiae
 - ♣ Summarization of key events
 - ♣ Legal - (local, city, state and federal)
 - ♣ Working with legal counsel
 - ♣ Ensure the response strategy is in compliance with regulations or laws, including obligations through contracts (MOU,SLA)
 - ♣ For example: Customer data breach, or payment card information
 - ♣ Public relations
 - ♣ Support services
 - ♣ Customer services (SLAs not met, data breach, outages)
 - ♣ Public Media
 - ♣ Regulatory authority reporting - (local, city, state and federal)
 - ♣ Examples: potential HIPPA violation, GDPR violation
 - ♣ Law enforcement - (local, city, state and federal)
 - ♣ Civil or criminal liabilities
 - o Incident response reporting (2)
 - ♣ Executive summary - high-level summarization of key findings
 - ♣ 5 W's
 - ♣ Who - Threat actor
 - ♣ What - Type of occurrence, threat vector/method
 - ♣ When - Time of occurrence
 - ♣ Where - What system, process, application or physical location the incident

occured

- ♠ Why - Identified vulnerability (or vulnerabilities)
 - ♠ Recommendations - strategic advice on controls to implement or deploy (countermeasures)
 - ♠ Timeline - a complete record of the event from detection to remediation
 - ♠ Impact - details the effect of the incident to the organization
 - ♠ Scope - details the range of the effect to the organization
 - ♠ Evidence - preservation of all documentation for examination at a later time (think of chain of custody, timestamps....)
