- Show Name: Pentest+ (PT0-002)
- Topic Name: Information Gathering and Vulnerability Assessment
- Episode Name: Target Recon

Target Recon

Objectives:

- Identify public sources of information that could contain a target's sensitive information
- Utilize Open Source Intelligence(OSINT) tools to gather an organization's possibly sensitive information

• Passive Recon

- Identify Technical Contacts
- Administrator Contacts
- Cloud vs. Self-Hosted
- Company Reputation / Security Posture

• Social Media Scraping

- Key Contacts/ Job Responsibilities
- Job Listings
- Technology Stacks

• Cryptographic Flaws

- SSL Certs
 - Expired
 - Does Target use self-signed certs?
 - Vendor certs?
 - Weak keys / versions
 - Key attacks
 - Downgrade attacks
 - No handshake
 - Revocation
 - Browsers won't let you access the site

- `ssllscan itpro.tv`

• Data

◦ Password Dumps
