- Episode Name: Container Vulnerabilities

=====

Container Vulnerabilities

Objectives:

- Explain vulnerabilities common to Containers
-

- What is a container?
 - Like a VM, but different
 - No Virtualized OS, instead uses Host OS
 - No Hypervisor, instead Container Engine
- Container Vulnerabilities
 - Container software and Cloud deployment
 - Docker
 - Kubernetes
 - Amazon ECS
 - Insecure secrets
 - Weak authentication
 - Crappy passwords
 - No 2FA
 - Public access
 - Apps that run in a container
 - Web Apps
 - Network services
 - Software vulns
