- Show Name: Intro to IoT Pentesting
- Topic Name: IoT Basics
- Episode Name: IoT Targets

=====

IoT Targets

Objectives:

- Identify common IoT targets
-
- What is IoT?
 - Devices that are able to be connected to the Internet.
 - Devices that can connect to other devices
 - How do these devices connect?
 - Wired
 - Wireless
 - Wifi
 - Bluetooth
 - RF
 - Which IoT devices make good targets for pentesters?
 - It literally could be any connected device
 - Consumer IoT
 - Wifi Routers
 - Smart Home
 - IP Camera
 - Enterprise IoT
 - HVAC
 - CCTV
 - RFID Badges
 - IIoT
 - Robotics
 - HMIs (Human Machine Interface)
 - Healthcare IoT
 - Monitors
 - Glucose
 - Heart
 - Pain Pumps
 - Robotic Surgery
