=====

Firmware Analysis Toolkit

Objectives:

- Become familiar with the function and use-case of the Firmware Analysis Toolkit in the context of IoT Penetration Testing.

-
- What is the FAT?
 - Collection of software and scripts that automates the process of emulating firmware
 - Why emulate?
 - Do security research without physical access to target device
 - Why not just do this all the time?
 - 60% of the time, it works every time!
 - How do we get it?
 - <https://github.com/attify/firmware-analysis-toolkit>
 - <https://www.attify.com/attifyos>
 - How do we use it?
 - `sudo ./fat.py firmware_name.bin`
