- Show Name: Intro to IoT Pentesting
- Topic Name: Firmware Hacking
- Episode Name: Analyzing Firmware

=====

Analyzing Firmware

Objectives:

- Explore firmware filesystems to uncover possible sensitive information or actionable intel

-
- Where do we begin?
 - Learn about the embedded system
 - `uname`
 - `/etc/issue`
 - `netstat`
 - `ps aux`
 - What kind of secrets are we looking for?
 - Certificates
 - Keys
 - Hard-coded creds
 - `www`
 - usernames/passwords
 - Anything else?
 - What apps are installed
 - `/bin`
 - `/sbin`
 - `/usr/bin`
 - `/usr/sbin`
