=====

Firmware Emulation

Objectives:

- Utilize emulation software so that you can perform firmware security analysis

-
- Emulation or Extraction?
 - Yes!
 - We should be doing both
 - Emulation is great...when it works
 - Extraction is usually more successful
 - Are we going to use the firware analysis toolkit?
 - Yes
 - `sudo ./fat.py firmware.bin`
 - And now it's analysis time?
 - Yes
 - Usernames
 - Passwords
 - Keys
 - Certificates
 - Test mods
