

- Filename: securitypro-practicalpentesting-bradstine-9-1-1-blue_team_pentesting.md
- Show Name: Practical Pentesting with Brad Stine
- Topic Name: xxxx
- Episode Name: Blue Team Pentesting
- Description: In this episode, Daniel and Brad take a moment to look into how Blue Team members can leverage pentesting and pentesting methodology to assist their efforts toward securing their environments. Here specifically, they leverage an actual use case for assessing Antivirus systems by attempting to gain access to a remote machine using a custom RAT payload and C2 server without being detected.
